

# Who WE are?

**Asbar Automation** is a specialized supplier in the field of industrial automation.

We are committed to delivering fast, reliable, and sustainable solutions for our customers' needs in automation, electronic, and mechanical spare parts.

At Asbar Automation, we go beyond national boundaries to deliver fast, reliable, and customized solutions through our strategic logistics hubs and agency network located in:

- Turkey (Headquarters)
- China (Asia sourcing & logistic center)
- United States (North America logistics base)
- Poland (European distribution base)

Thanks to this multi-continental infrastructure, we are able to offer:

- Direct access to manufacturers in Asia
- Fast and cost-effective sourcing in North America
- Smooth and optimized deliveries across Europe

# Special Services

## 🌐 Global Sourcing

Through partners and hubs in the U.S., Europe, and Asia, we ensure access to the best price-performance balance for your requirements.

## 📋 Tender and Project Consultancy

We provide technical consultancy and product matching support for public and private tenders, as well as industrial projects.

## 🔍 Obsolete and Hard-to-Find Parts Sourcing

We specialize in locating and supplying discontinued, rare, or hard-to-find automation components.

# Why ASBAR?

Thanks to our global supply network and experienced team, we process both new and used product requests with 24/7 communication support and provide solutions in the shortest possible time.

Our goal is to ensure that your production & services continues without interruption by delivering the right product at the right time and cost.

**At Asbar Automation, we are not just a supplier – we are your solution partner.**
